

# Equipment Loss Consulting

Property damage claims involving technical equipment can be catastrophic for policyholders and extremely complicated for insurers to navigate. Envista's team of multi-disciplinary equipment loss consultants provide comprehensive post-loss assessments, services, and guidance with quick, responsive communication.

## Our Areas of Expertise:

- » Building Systems
- » Commercial Equipment
- » Electronics
- » Equipment Restoration
- » Heavy Equipment and Machinery
- » HVAC and Boilers
- » Industrial Equipment
- » Information Technology
- » Mechanical Equipment
- » Medical Equipment
- » Scientific and Laboratory Equipment
- » Telecommunication and Network Equipment

## Types of Losses We Can Assist With:

- » Contamination
- » Data Loss and Ransomware
- » Electrical/mechanical failures
- » Equipment breakdown
- » Explosion
- » Fire, water, and other contamination
- » Hard drive failures
- » Lighting damage
- » Materials failure
- » Operator error
- » Power outage
- » Power surge/sag
- » Shipping and handling damage
- » Software/data corruption
- » Theft and vandalism
- » Wind, hurricane, and tornado damage

## Our Equipment Expertise Includes:

- » Actual Cash/Fair Market Valuation
- » Causation Conclusions and Reporting
- » Code Upgrades and Betterments
- » Contamination Sampling
- » Cost Estimation
- » Expert Witness Support
- » Fire and Sprinkler Modeling
- » Fourier-Transform Infrared Spectroscopy (FTIR)
- » Gas Chromatograph/Mass Spectrometer
- » Ion Chromatography
- » Recovery Efforts Through Subrogation
- » Repair and Replacement Evaluation
- » Restoration Potential and Estimation
- » Salvage Potential
- » Scope and Extent of Damage
- » Site Survey with Matterport/Drones
- » Warranty and Reinstatement Options
